

AVAILABLE FOR HIRE

Use

The Wood's Powr-Grip P11104 '4-in-line' is one of our most popular lifters. Providing an impressive 320kg lifting capacity, it's a great choice when lifting and installing glass.

Benefits

- Reduces heavy lifting for site personnel
- Minimises damage to expensive glass units
- Improves productivity by speeding up installation times
- Dual circuit machine to EN13155:200 requirements
- Hook mountable—For crane or forklift with jib attachment
- Can also be used on metal and ceramics
- Lightweight and compact lifter
- Big 320 kg lifting capacity with 90 degree tilt and 180 degree rotation
