The Lifting Specialists

CRANE HIRE AND CONTRACT LIFTING

An Introduction To Vacuum and Crane Ltd

We are a specialist lifting company working within the construction industry to provide crucial and cost effective solutions for you. Working with a number of leading organisations, we have built up an excellent reputation over the past 16 years in the industry with our customers returning to us again and again.

From our offices in the West Midlands, we offer Nationwide coverage, providing you with a skilled workforce to offer a full contract lift service, crane and operator hire or hire of our vacuum suction lifters.

Our philosophy is that we make your life easier. Taking the pressure off you on sites, using our skills and depth of knowledge to offer you the best possible solution for each individual job.

Our Guarantees To You

- We promise to deliver to any location in the UK by 8am using our own drivers and never couriers.
- We offer a wide range of lifting solutions for all of your glazing installations, based on 40 years' collective experience.
- We give you rates that are always competitive.
- We strive to ensure that whatever crane you require on site for a contract lift (including mobile cranes), we will meet your need.
- We value your business greatly, and will always endeavour to exceed your expectations of us.

CPA Contract Lift

We are able to offer you complete peace of mind with our Full CPA Contract Lift service which eases the pressure for you on site, taking the hassle away from organizing a number of different elements.

This is a very popular option with our customers and includes the following:

- Free Initial site survey by one of our CPCS appointed persons to assess requirements
- Hire of crane and CPCS qualified operator
- CPCS qualified lift supervisor / slinger banksman
- Vacuum lifter if required
- Risk assessment, method statement and lift plan
- Full Insurance

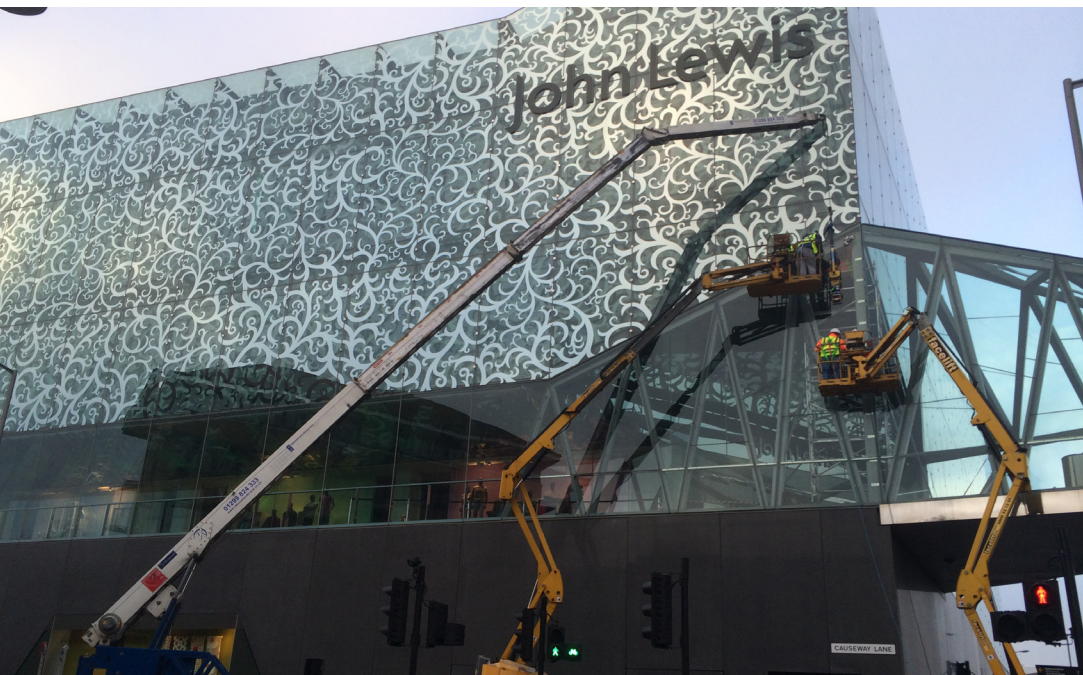

We are involved with lifting on a wide variety of projects ranging from supermarkets, universities, shopping centres and airport terminals through to self-build homes and sports facilities. We are happy to discuss any lifting requirements you may have, just get in touch.

“ We are delighted to be associated with Vacuum and Crane, they have in conjunction with our on site teams carried out contract lift procedures on a number of prestige contracts, ranging from food superstores to the campus of a fully live university environment. All works have been undertaken with due regard to health and safety, and with the utmost professionalism.

CPA Crane Hire

We can offer you this option if you are experienced and confident to carry out your own lift planning by an appointed person and are looking to hire a crane on your job with one of our CPCS qualified operators. We can also provide you with a choice of vacuum lifter if required.

Being able to hire you a range of cranes, from mini spider cranes and trailer cranes up to much larger ones, we can give you the flexibility you require depending on each individual job.

We can utilise our cranes to lift a huge variety of items including glass, steel and wooden trusses and can supply specific lifting gear to enable attachment to them. Contact us if you have a project that you would like to discuss.

“

Vacuum and Crane Ltd are a very good company to work with, they provide prices quickly and accurately and on site they are professional and always willing to go that extra mile to help their customers.

Logic Aluminium Systems Ltd

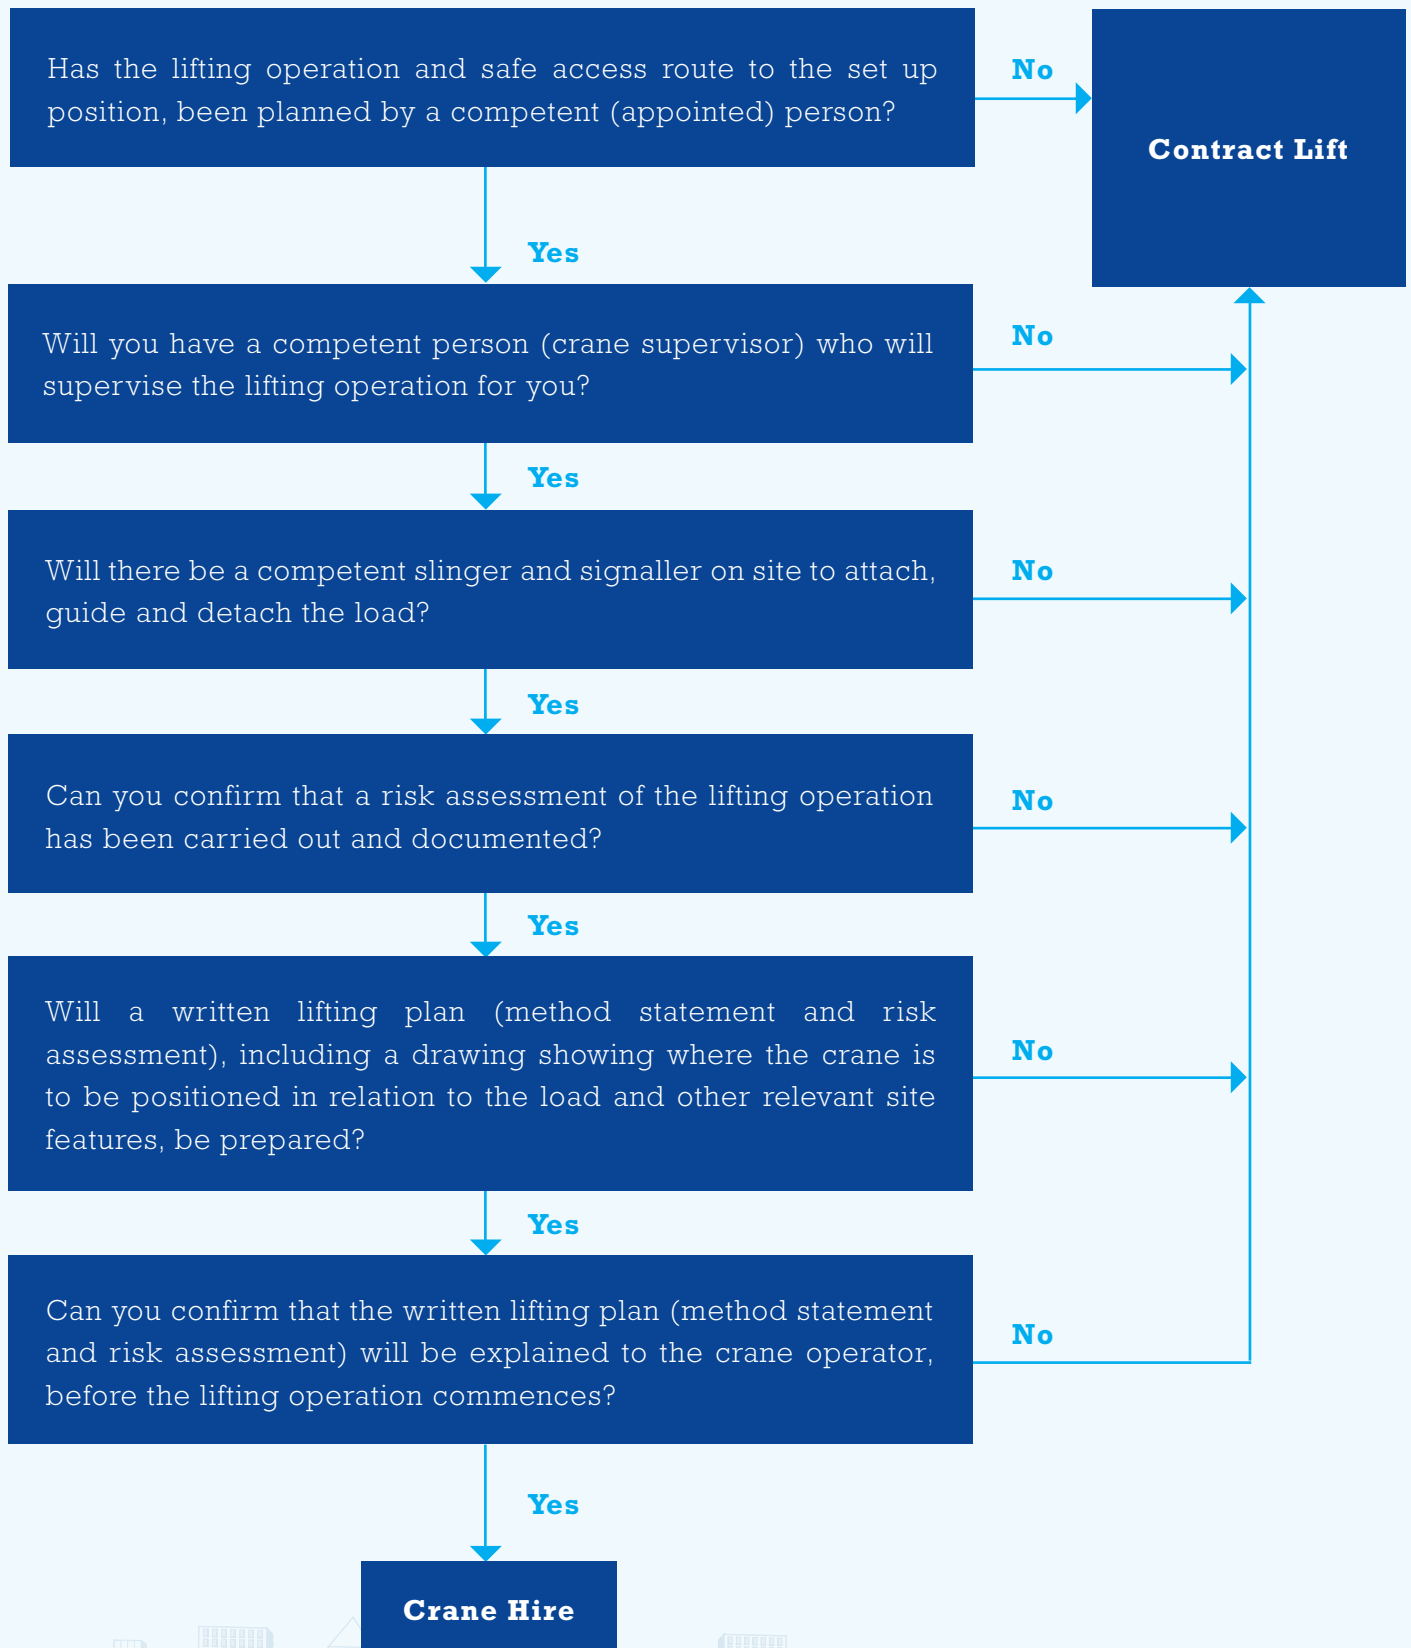

“

We have used Vacuum and Crane for a number of years now and they continue to perform to an excellent standard. Weston Flavell shopping centre was no exception to this where they assisted our install of a new glass lift enclosure in a challenging environment. I would have no hesitation in recommending Vacuum and Crane to anyone looking for a reliable, yet flexible, specialist plant contractor.
